

DKTS-200

Two Knife Trimmer

DKTS-200 configured with iSaddle 5.0

- *Head and foot trimmer for iSaddle 5.0 and DBM-700 Bookletmaker*
- *Integrated air distribution system clears away trim waste from cutting area*
- *Trims booklets up to 120 pages*
- *Offset trim and 2-up bookletmaking capabilities*
- *Automated set up and changeovers*

Add Full-Bleed Finishing to your Bookletmaking

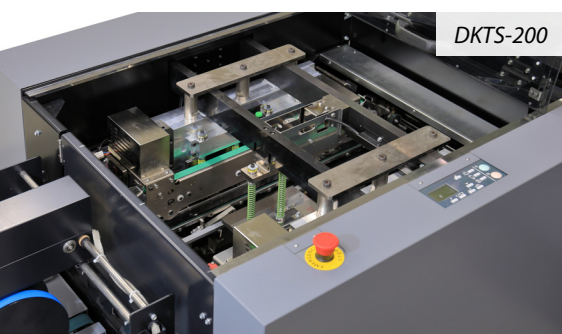

The DKTS-200 Two Knife Trimmer brings in-line finishing to your Duplo bookletmaking. Configurable with the iSaddle 5.0 and DBM-700 Bookletmaker, the DKTS-200 automatically trims the head and foot of each booklet for a full-bleed finish.

No tools are required to change over from one size to another. The registration stopper, side joggers, and cutting knives are automatically moved into position based on the parameters entered on the system's PC Controller. Set up is simple, safe, and virtually hands-free.

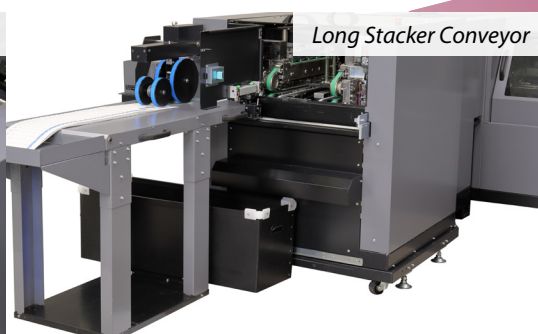

MAKE IT MORE VERSATILE WITH THESE OPTIONS

- Double the productivity of your small format jobs by adding the 8mm **Gutter Cutter** to perform 2-up bookletmaking. With the addition of an access door, the Gutter Cutter and other accessories can be installed with ease.

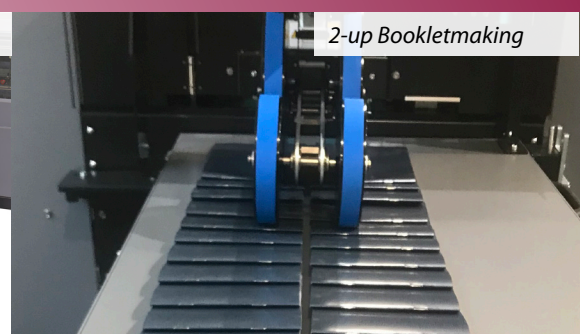

- The **Angle Blade** prevents nicking and provides an even cleaner trim along the spine.
- The **Batch Kicker** can be used to offset a booklet at a specified count. This allows the operator to quickly identify each batch and keep track of the number of booklets being produced or packed.
- At the end of the DKTS-200, the LSW2 **Long Stacker Conveyor** features a stacking capacity of 57" and the ability to remove finished booklets without interrupting operation to support high volume environments.
