DSS-350

Square Spine

The DSS-350 module adds a square spine finish to produce flatter offset and digitally printed booklets. With a processing speed of up to 2,600 booklets per hour, the DSS-350 is ideal for low to mid-volume runs and is the fastest of its kind. The DSS-350 can be used as a stand-alone unit for hand feeding or can be configured with the DBM-350 Bookletmaker. It can also be used in off-line mode with the DBMS Saddle Stitcher. The DSS-350 can finish applications such as yearbooks, catalogs, calendars, and magazines up to 0.17"/4.2mm in thickness giving them a flatter look!

Flatter books with a square spine finish.
